H. WILLIAM DeWEESE
THE MAJORITY LEADER

HOUSE OF REPRESENTATIVES
COMMONWEALTH OF PENNSYLVANIA
HARRISBURG

July 18, 1990

Mr. William K. Reiley
Administrator
Environmental Protection Agency
401 "M" Street, S.W.
Washington, D.C. 20460

Dear Mr. Reiley:

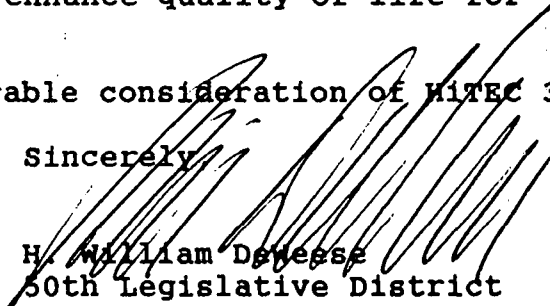

It has come to my attention that the Environmental Protection Agency is considering permitting the use of a gasoline performance additive known as "HiTEC 3000."

HiTEC 3000 appears to significantly reduce smog-producing, nitrogen oxide emissions as well as overall tailpipe emissions. It is also readily available and compatible with gasolines containing methanol, ethanol and other reformulated fuels.

Air pollution is a major problem that adversely affects the environment and our health. It is important that we explore innovative and feasible methods, such as the use of HiTEC 3000, to reduce pollution and thereby enhance quality of life for ourselves and our children.

I urge your prompt and favorable consideration of HiTEC 3000.

Sincerely,

H. William DeWeese
50th Legislative District
The Majority Leader
